GOBOLIGHTS X TAMAWA

Since its creation in 2008, Tamawa has had a strong identity, supported by the use of bakelite ball as the exclusive material for its entire collection. The story began when Belgian designer Hubert Verstraeten met billiard ball manufacturer Saluc.

The latter supplied the designer with aramith (phenolic resin), who initially opted for the self-production of 2 watches before designing a line of jewellery that would inspire the name of the newly created brand. Tamawa literally means "ball on the ring" in Japanese.

THE COLLECTION

In this collaboration, the main connector is a bakelite ball made by the Tamawa studio. This connector offers the possibility of connecting up to seven branches in an infinite number of possibilities.

THE MODELS

OMBELLE I

Brushed brass and bakelite
Glass tube
Size: 190 x 220 x 100 cm
Public price - 1.030€

OMBELLE II

Brushed brass and bakelite
Glass tube
Size: 230 x 215 x 100 cm
Public price - 1.500€

OMBELLE III

Brushed brass and bakelite
Glass tube
Size: 230 x 230 x 100 cm
Public price - 2.000€
