

# GOBO LIGHTS

Handmade lamps from Belgium

ABOUT THE DESIGNER

# Nicolas Breviers

Self-taught and coming from the world of chemistry, this Belgian craftsmandesigner designs his pieces with as much meticulousness as in a laboratory.

He loves numbers and perfect proportions, with which he plays using the timeless laws of hallowed geometry to adorn the space of his atomic shapes.

Shapes with pure, light and contemporary lines that evoke the very essence of natural elements.

## BALANCE & EMOTION

They are a witness to a new language where the rational and the functional dialogue with the emotional to create a hypnotising and soothing universe that is the designer's own.

Always searching for equilibrium, Nicolas Brevers creates objects where lightness rhymes with precision, purity with architecture and art with design.

# THE STUDIO

## GOBO LIGHTS

Gobolights conveys Nicolas Brevers' vision of design: playful kinetic art that results from research into aesthetics, harmony and balance.

The Gobolights design studio in Brussels specialises in the creation and production of upmarket contemporary lighting produced in small series and made to measure.

# MADE IN BELGIUM

Gobolights is represented internationally by its presence at numerous fairs, such as the Salone del Mobile in Milan and Maison et Objets in Paris, and selected in 2016, 2017 and 2018 for the A design awards.

# MISSION & VALUES

In order to offer quality lighting, it is essential for the brand to master all the stages of creation within the studio.

Bespoke lighting is one of the main values of Gobolights creations workshop. The aim of our work is for our lights to respond elegantly to the spaces they illuminate by taking shape through the craftsman's savoir-faire.

Gobolights also works in close collaboration with distributors and resellers, interior designers and individuals.

# CRAFTSMANSHIP & TECHNOLOGY

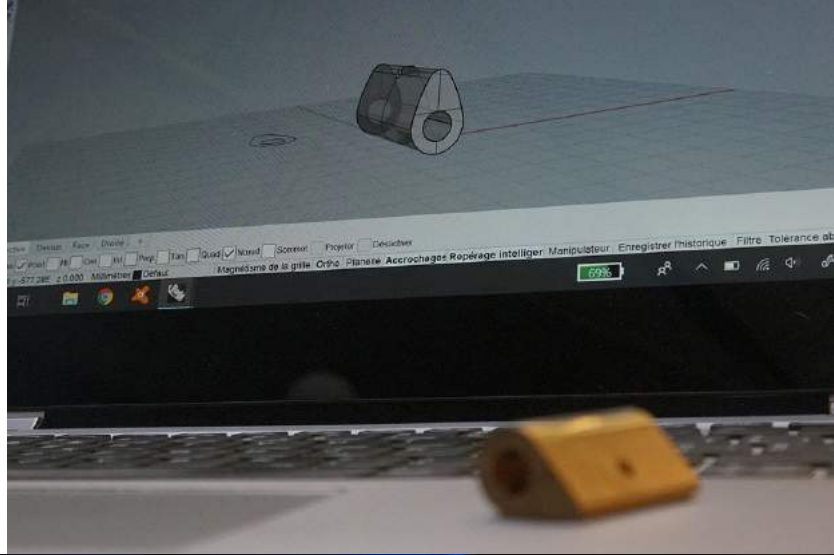

In constant evolution, the studio combines traditional methods and new technologies.

Each component is created in-house and then made by us or one of our sub-contractors.

We can develop a new component or piece of glassware for a specific project.

Our lights are assembled  
and tested in our workshop.

It also endeavours to  
encourage meetings and  
collaborations on the basis  
of varied projects.

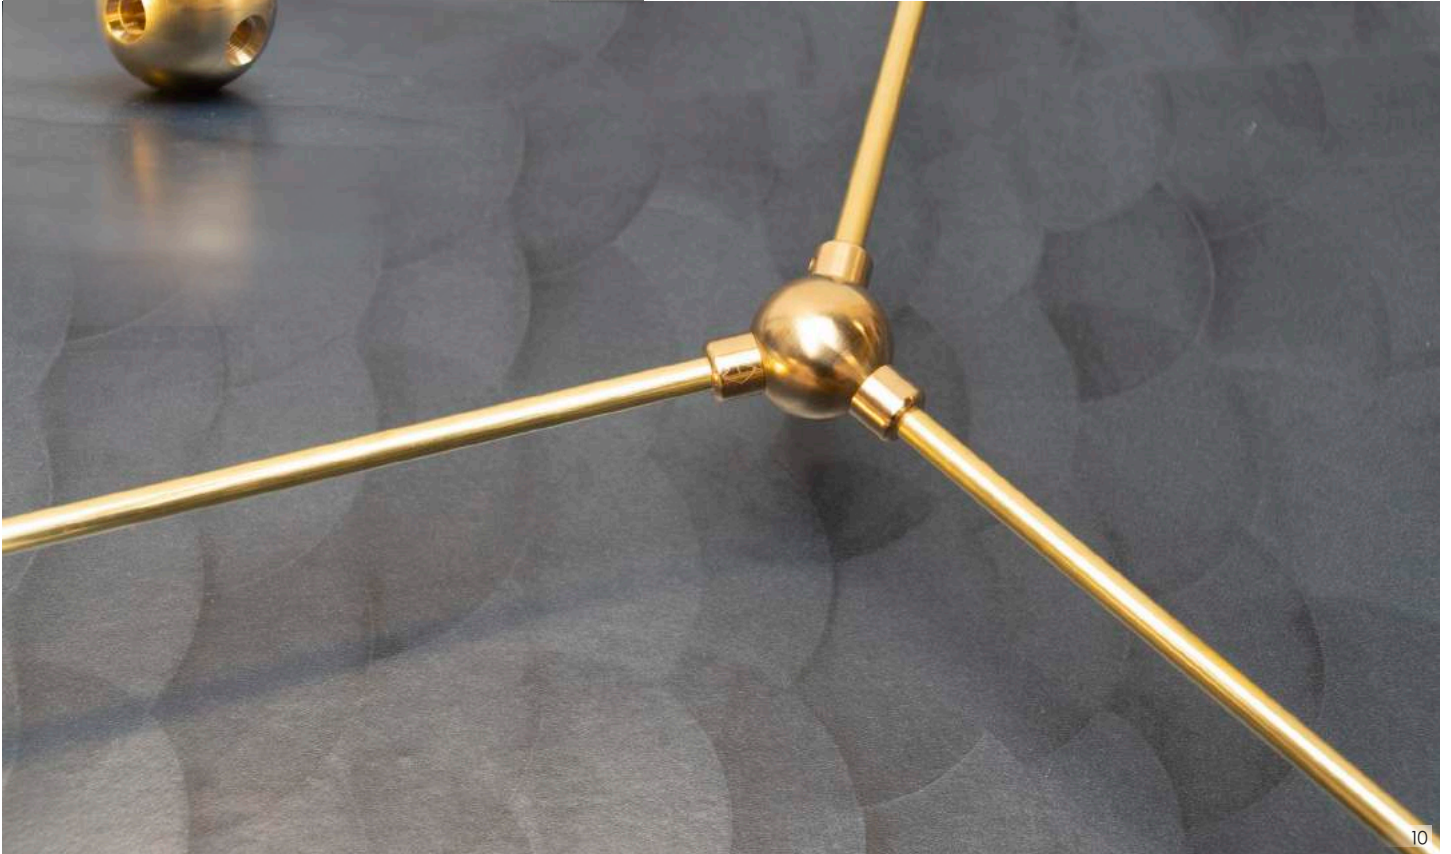

# MATERIALS & FINISHS

Our brass parts are milled using a digital machine, and are then polished by hand, which gives them an optimal finish.

Our glass globes are mouth blown in a family owned glass blower workshop located in Poland.

# ADAPTIVE LIGHTING

We do not use integrated lighting systems in our lights but rather standard LED bulbs, which can be replaced at the end of their life.

You can choose the heat (2,700–6,000 Kelvin) and the intensity of your light bulbs (200–1,000 lumens).

Our lights are compatible with European and American standard light bulbs and with an LED dimmer switch.

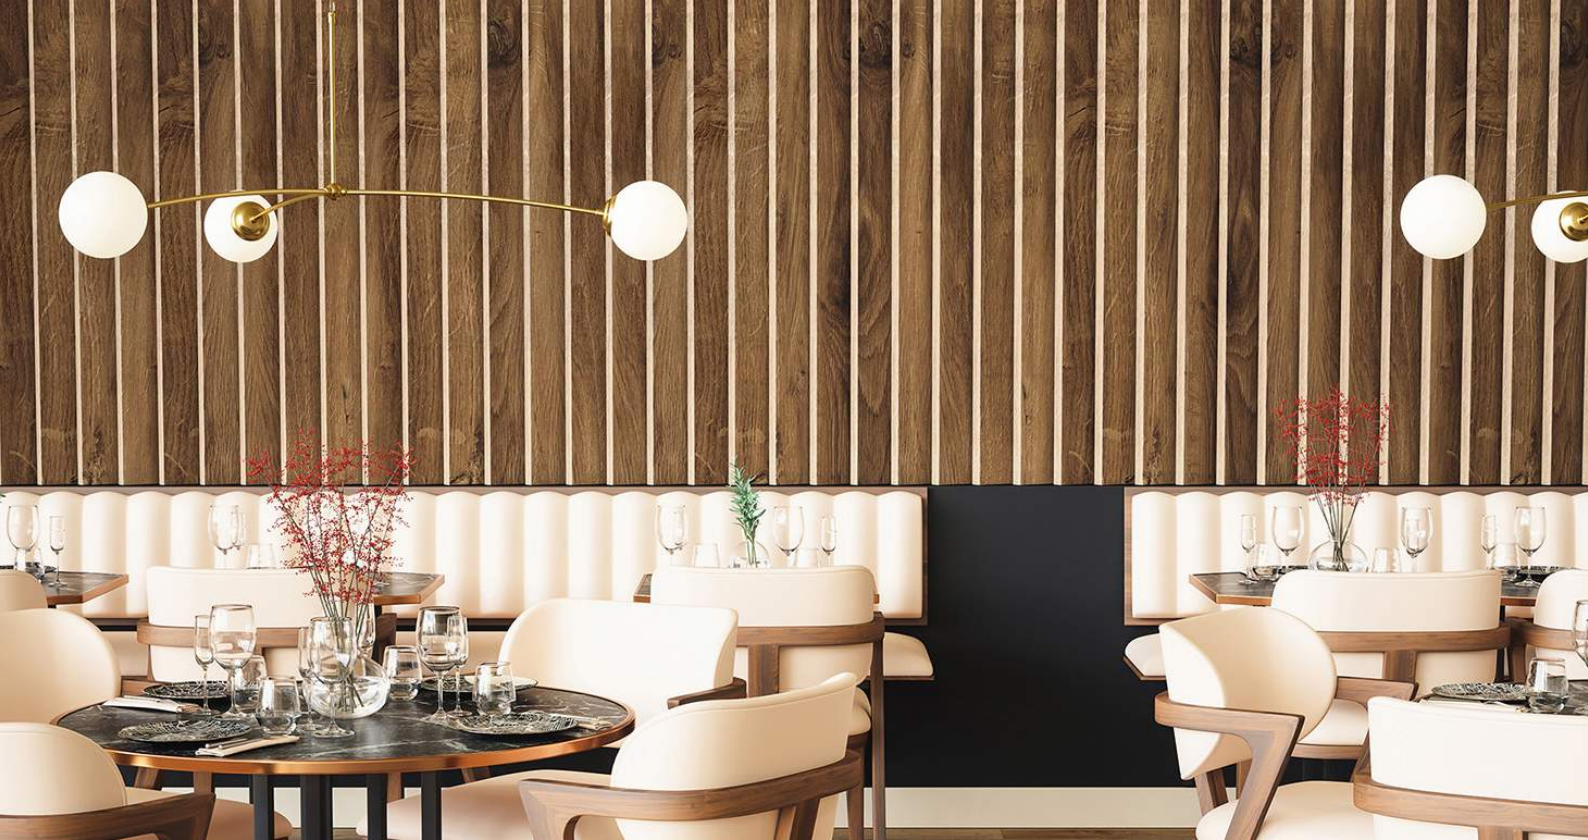

# BESPOKE LIGHTINGS

We work to order so that each of our lights best suits each interior and are available to help in any decisions you may have.

The proposed dimensions of the models in our collections can be adapted on request.

Thanks to the craftsmanship and creativity of Nicolas Brevers, new creations can also emerge based on the collaborations and projects that inspire him!

# A PROJECT ?

---

Whether it is for housing projects or those for hotels, bars, restaurants or shops, Gobolights is able to offer lights tailored to your needs.

We are available to imagine a new creation developed in collaboration with you.

# CASE STUDY

We will study your request on the basis of a 3D image, a sketch, a photograph or an appointment in our studio or on your premises and send you a reply regarding the feasibility of your project as soon as possible.

A proposal with the technical details, a 3D image and an estimate of the costs will then be forwarded to you.

Once you have accepted it and lodged the requested down payment, your light will be manufactured in four to six weeks.

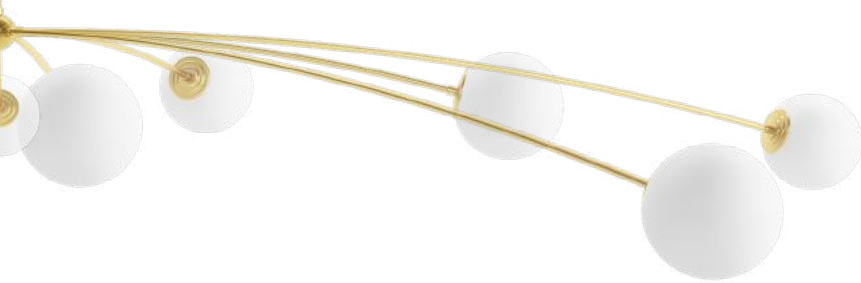

# DIMENSIONS

Most of our lamps are available in 3 standard sizes S, M and L. You can find a summary of all the lamps and their different sizes p. 110 to 115.

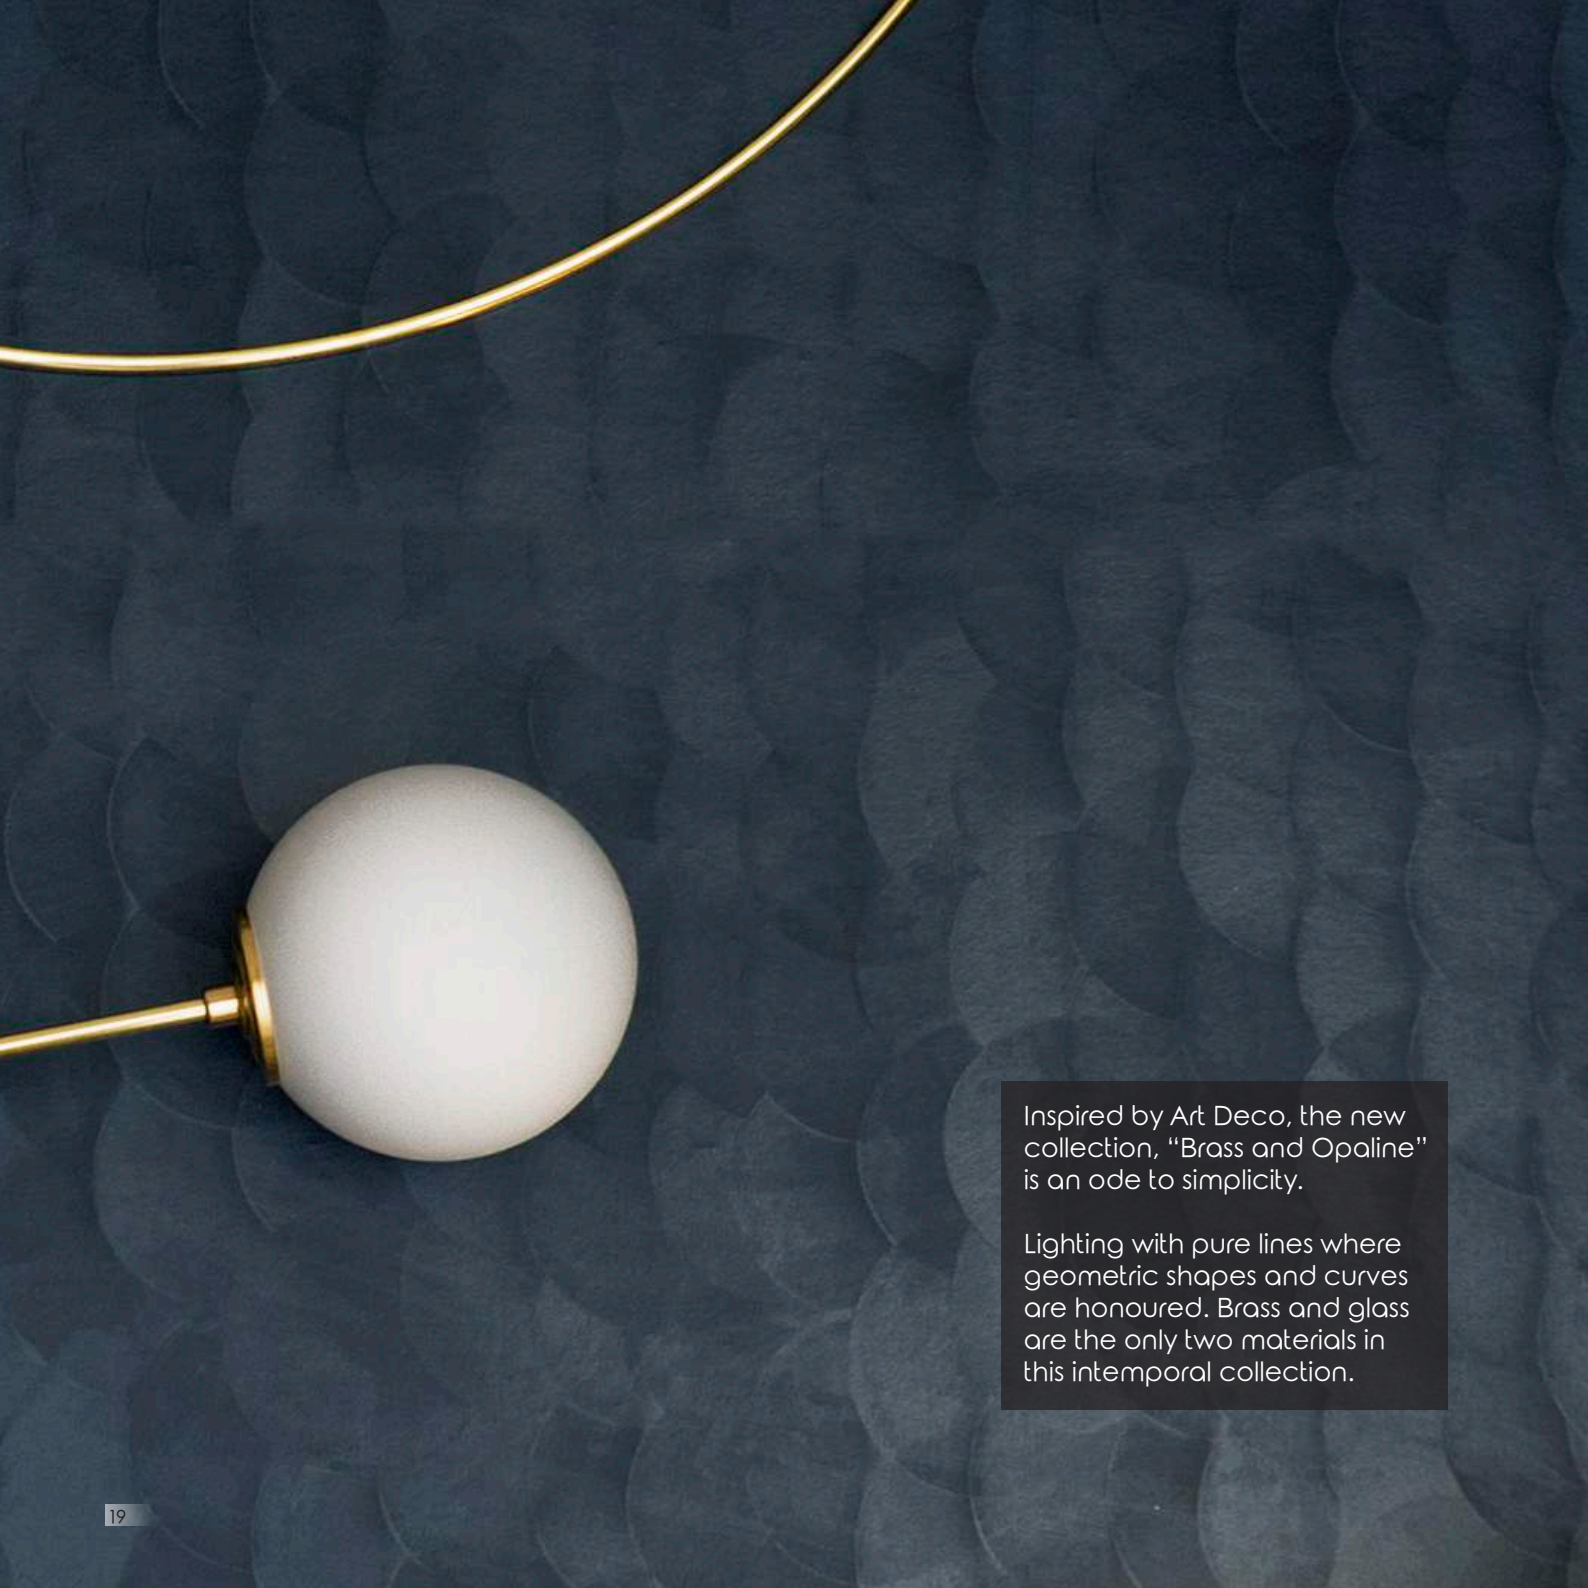

We want to make sure that each of our lights work harmoniously with your interior. Do not hesitate to ask us for any adaptation of the proposed dimensions by contacting us by email at [info@gobolights.be](mailto:info@gobolights.be)

We will be happy to respond to your request.

# COLLECTION BRASS & OPALINES

Inspired by Art Deco, the new collection, "Brass and Opaline" is an ode to simplicity.

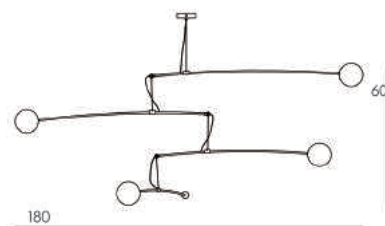

Lighting with pure lines where geometric shapes and curves are honoured. Brass and glass are the only two materials in this intemporal collection.

# NOTOS

Notos, the master of the violent south wind.

# COLLABORATIONS

Gobolights collaborates with artists from various fields to create new objects where the creative worlds of each meet harmoniously.

# GOBOLIGHTS X MIRA

About  
*MIRA*

Mira is a duo of contemporary artists who started collaborating in 2015. Yvan Brutsaert's work is full of strength, intuition, movement and material. Sometimes cosmic, sometimes mineral. Laurent Van Ausloos appropriates it by giving it his own artistic vision. A photographical and contemporary vision capturing painting as a landscape and transforming it to create atmospheres, play of lights and visual depth.

@mira\_art\_project

@miravisuals1

# THE COLLABORATION

The Törö collection was born from the encounter between Mira and Gobolights, both of whom exhibited at Maison&Objet in 2019 with the Belgium is Design project. Mira's artwork meets the world of design in this collaboration with the Gobolights brand.

From this fusion of the two worlds comes a collection of lights: the triptych Törö I and the wall lamp Törö II. Produced in small series in Belgium, these pieces with organic colours and shapes, between art and design, bring a unique touch to your interior.

TOR002

About  
*MARIE*

In 2013, Marie Brissart decided to return to the material that had inspired her so much during her childhood and to become a potter.

All of Marie Brissart's utilitarian and decorative pottery are created entirely by hand in her workshop in Hennuyères, Belgium. Marie works with different types of clay such as stoneware, a rustic material that is scratch-resistant and waterproof. The pieces are made on the potter's wheel.

This very old craft technique requires a long apprenticeship and a lot of practice, but it allows to obtain regular and very light pieces.

@mariebrissart

@MarieBrisartPoterie

www.mariebrissart.com

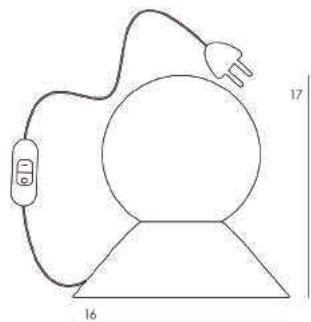

# THE COLLABORATION

The collaboration between the ceramist Marie Brissart and Gobolights has resulted in the creation of a series of table lamps inspired by the work of Bracusi. The bases of Lung and Sobru are made of hand-turned stoneware and the lampshade is made of a mouth-blown opaline sphere. Alone or in a group, these lamps will bring a warm light into your living room or bedroom.

# SOBRU

Sobru means sober in Romanian, Brancusi's country of origin.

LUNG01

# LUNG

The name of this slender lamp means long in Romanian.

About  
*TAMAWA*

---

Since its creation in 2008, Tamawa has had a strong identity, supported by the use of bakelite ball as the exclusive material for its entire collection.

The story began when Belgian designer Hubert Verstraeten met billiard ball manufacturer Saluc. The latter supplied the designer with aramith (phenolic resin), who initially opted for the selfproduction of 2 watches before designing a line of jewellery that would inspire the name of the newly created brand. Tamawa literally means “ball on the ring” in Japanese.

@tamawa.be

@Tamawa.be

www.tamawa.be

# THE COLLABORATION

In this collaboration, the main connector is a bakelite ball made by the Tamawa studio. This connector offers the possibility of connecting up to 7 branches.

# DIMENSIONS SUMMARY

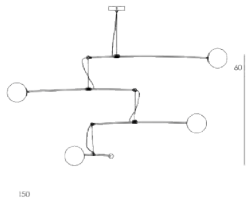

You will find all the proposed dimensions for our different models on our website.

We work to order and are able to adapt the proposed dimensions and create a tailor-made light that will highlight both the work of the craftsman and your interior.

Contact us on [info@gobolights.be](mailto:info@gobolights.be) for any request, from ordering a referenced model to adapting or even creating a new light.

HELIO01M : globe Ø 20 X Ø 65 X H.100

product sheet P. 40.

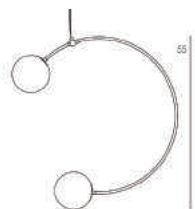

## HÉLIOS L REF.HELIO03

HELIO01L : globe Ø 20 X Ø 80 X H.100

Product sheet P. 40.

## SÉLÉNÉ S REF.SELE01S

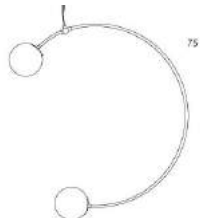

SELE01S : L.55 X I.12 X H.55

2M electric cable

Fiche produit page 42.

## SÉLÉNÉ M REF.SELE01M

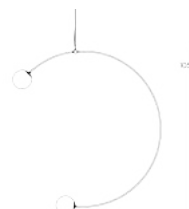

SELE01M : L.75 X I.12 X H.75

2M electric cable

Product sheet P. 42.

## SÉLÉNÉ L REF.SELE01L

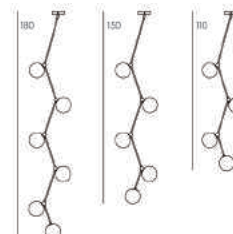

SELE01L : L.100 X I.12 X H.100

2M electric cable

Fiche produit page 42.

## JUPITER REF.JUPI01/02/03

JUPI01 : L.35 X I.12 X H.110

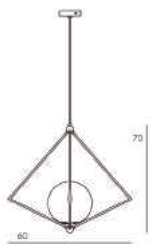

JUPI02 : L.35 X I.12 X H.150

JUPI03 : L.35 X I.12 X H.180

Product sheet P. 44.

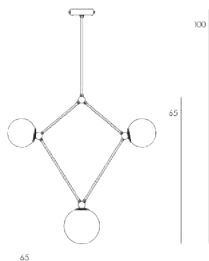

## ATLAS REF.ATLA01

ATLA01 : L.60 X I.60 X H.100

Product sheet P. 46.

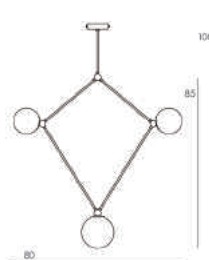

## HERMES S REF.HERM01S

HERM01S : L.45 X I.15 X H.100

Product sheet P. 46.

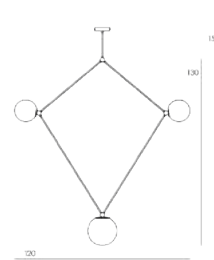

## HERMES M REF.HERM01M

HERM01M : L.80 X I.15 X H.100

Product sheet P. 46.

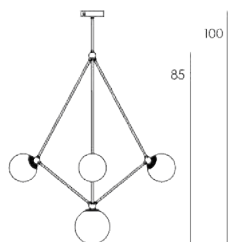

## HERMES L REF.HERM01L

HERM01L : L.120 X I.15 X H.100

Product sheet P. 45.

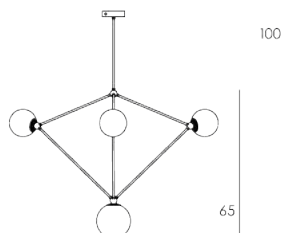

## MAIA I REF.MAIA01

MAIA 01 M : L.70 X I.70 X H.100

Product sheet P. 52.

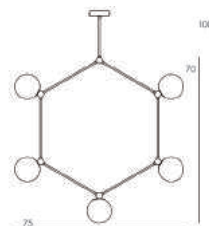

## MAIA II REF.MAIA02

MAIA 02 M : L.95 X I.95 X H.100

Product sheet P. 50.

## ACHILLE REF.ACHI01

ACHI01 : L.75 X I.12 X H.100

Product sheet P. 48.

## POLYPHEME REF.POLY01

POLY01 : L.20 X I.20 X H.100

Product sheet P. 47.

## ZEUS REF.ZEUS01

ZEUS01M : L.3 X I.3 X H.100

Product sheet P. 53.

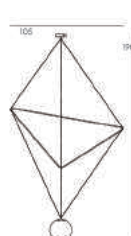

## AMPELOS REF.AMPE01

AMPE01 : L.25 X I.25 X H.100

Product sheet P. 55.

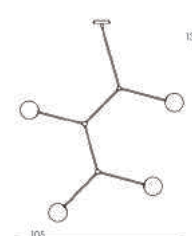

## CHRONOS REF.CHRO01L REF.CHRO01A

CHRO01M : L.75 X I.75 X H.120  
CHRO01L : L.105 X I.105 X H.190

Product sheet P. 57.

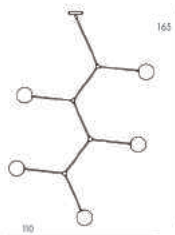

## MERCURE I REF.MERC01

MERC01 : L.105 X I.12 X H.130

Product sheet P. 58.

## MERCURE II REF.MERC01

MERC02 : L.110 X I.12 X H.175

Product sheet P. 65.

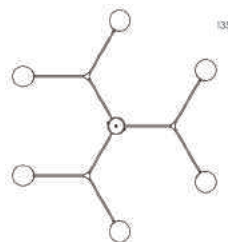

## MERCURE III REF.MERC03

MERC03 : L.115 X I.12 X H.190

Product sheet P. 64.

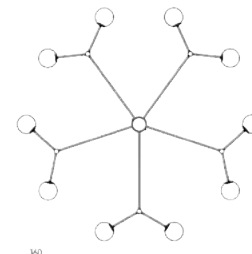

## CHIONE REF.CHIO01A

CHIO01 : L.135 X I.135 X H.100

Product sheet P. 60.

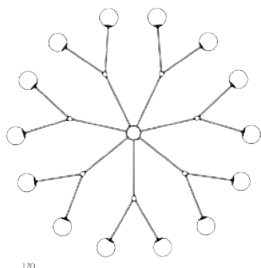

## CHIONE II REF.CHIO02A

CHIO02 : L.160 X I.160 X H.100

Product sheet P. 59.

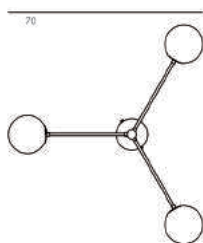

## CHIONE III REF.CHIO03A

CHIO03 : L.170 X I.170 X H.100

Product sheet P. 67.

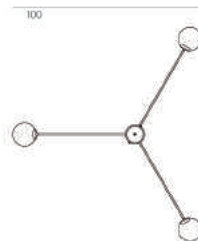

## ÉOLE I S REF.EOLE01S

EOLE01S : L.80 X I.70 X H.100

Product sheet P. 67.

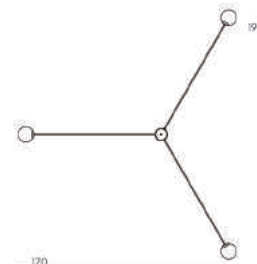

## ÉOLE I M REF.EOLE01M

EOLE01M : L.115 X I.100 X H.100

Product sheet P. 67.

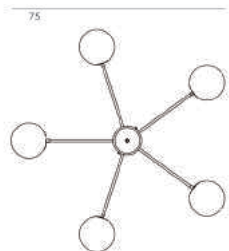

## ÉOLE I L REF.EOLE01L

EOLE01L : L.195 X I.170 X H.100

Product sheet P. 66.

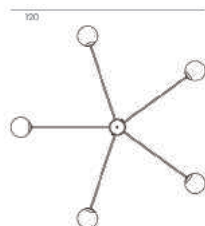

## ÉOLE II S REF.EOLE02S

EOLE02S : L.75 X I.75 X H.100

Product sheet P. 68.

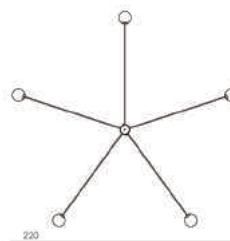

## ÉOLE II M REF.EOLE02M

EOLE02M : L.120 X I.120 X H.100

Product sheet P. 68.

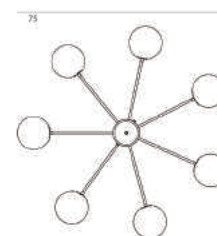

## ÉOLE II L REF.EOLE02L

EOLE02L : L.220 X I.220 X H.100

Product sheet P. 68.

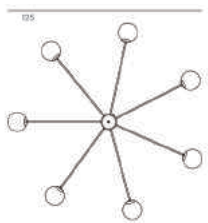

## ÉOLE III S REF.EOLE03S

EOLE03S : L.75 X I.75 X H.100

Product sheet P. 69.

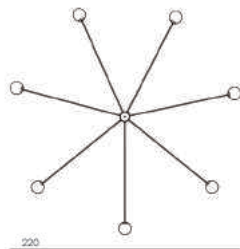

ÉOLE III M REF.EOLE03M

EOLE03M : L.125 X I.125 X H.100

Product sheet P. 69.

ÉOLE III L REF.EOLE03L

EOLE03L : L.220 X I.220 X H.100

Product sheet P. 69.

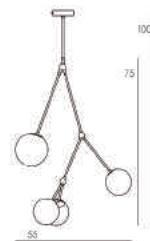

CHLORIS I REF.CHLO01

CHLO01 : L.45 X I.45 X H.100

Product sheet P. 73.

CHLORIS II REF.CHLO02

CHLO02 : L.55 X I.55 X H.100

Product sheet P. 74.

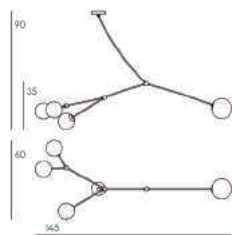

CHLORIS III REF.CHLO03

CHLO03 : L.55 X I.50 X H.110

Product sheet P. 76.

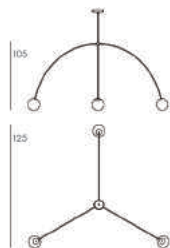

CARPOS REF.CARP01

CARP01 : L.145 X I.60 X H.90

Product sheet P. 78.

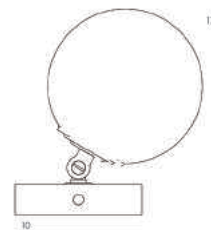

POSÉIDON REF.POSE01

POSE01 : L.125 X I.125 X H.105

Product sheet P. 89.

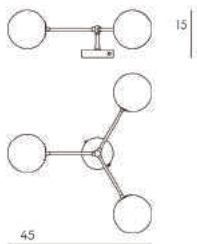

ANEMOI REF.ANEM01

ANEM01 : L.12 X L.10 X H.17

Product sheet P. 81

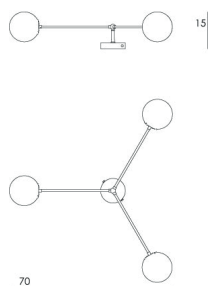

HECATE M REF.HECA01M

HECA01M : L.45 X I.12 X H.15

Product sheet P. 82.

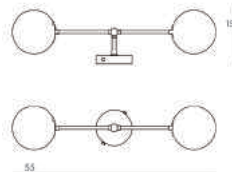

HECATE L REF.HECA01L

HECA01L : L.70 X I.12 X H.15

Product sheet P. 82.

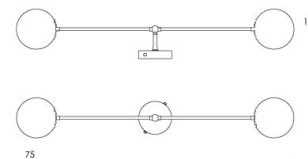

JANUS M REF.JANU01M

JANU01M : L.55 X I.12 X H.15

Product sheet P. 83.

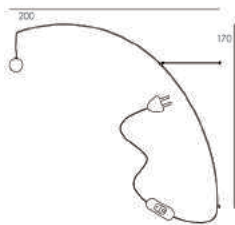

JANUS L REF.JANU01L

JANU01L : L.75 X I.12 X H.15

Product sheet P. 83.

## IRIS I REF.IRIS01

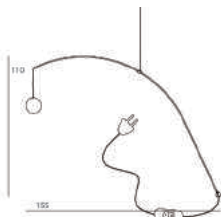

IRIS01 : L.200 X I.12 X H.170

With switch/ wall electrical connection

Product sheet P. 84.

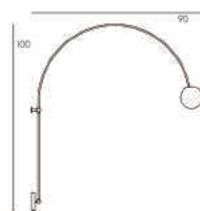

## IRIS II REF.IRIS02

IRIS02 : L.220 X I.12 X H.110

Product sheet P. 85.

## ARTEMIS I REF.ARTE01

ARTE01 : L.90 X I.12 X H.120

Product sheet P. 88.

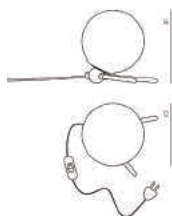

## ARTEMIS II REF.ARTE02

ARTE02 : L.90 X I.12 X H.120

Product sheet P. 88.

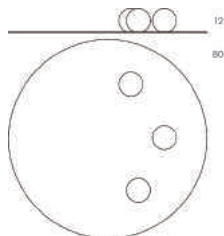

## ALCYON REF.ALCY01

ALCY01 : L.12 X I.12 X H.14

Product sheet P. 79.

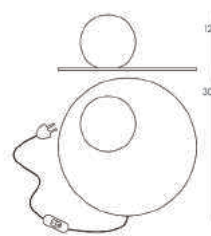

## TÖRÖ I REF.TORO01

TORO01 : Ø 100 X H.12  
Available in several finishes

Product sheet P. 94.

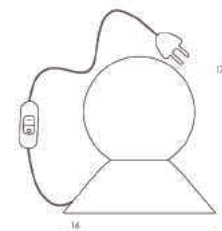

## TÖRÖ II REF.TORO02

TOR02 : Ø 30 X H.100 Available  
in several finishes

Product sheet P. 97.

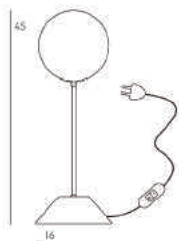

## SOBRU REF.SOBR01

SOBR01 : Ø 16 X H.17

Product sheet P. 100.

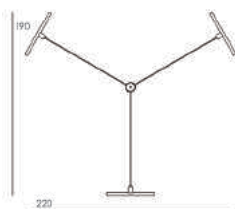

## LUNG REF.LUNG01

LUNG01 : Ø 16 X H.45

Product sheet P. 101.

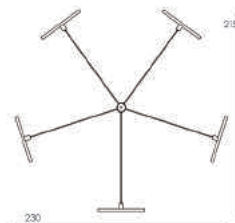

## OMBELLE I REF.OMBE01

OMBE01 : L.220 X I.190 X H.100

Product sheet P. 106.

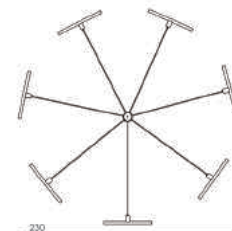

## OMBELLE II REF.OMBE02

OMBE02 : L.230 X I.215 X H.100

Product sheet P. 107.

## OMBELLE III REF.OMBE03

OMBE03 : Ø 230 X H.100

Product sheet P. 109.

# CONTACT

Notre studio/showroom est situé à Bruxelles à La Vallée, un espace de coworking créatif d'une centaine de projets sur 5000 m<sup>2</sup>.

Le studio est ouvert sur rendez-vous en semaine de 10h à 18h, mais il y a aussi possibilité de prendre rendez-vous le week-end et le soir.
